

# Maximising the accessibility of research results in the fight against Covid-19

Fields marked with \* are mandatory.

The [COVID-19 Research MANIFESTO](#) offers the opportunity for public and private stakeholders benefitting from EU funding, other research funders and prominent individuals and institutions to express their support and endorse the manifesto.

## **Maximising the accessibility of research results in the fight against Covid-19**

Considering the unprecedented, extraordinary challenges posed by the outbreak of the COVID-19 pandemic.

Encouraged by the broad public recognition of the important role of research and innovation in ending the COVID-19 pandemic.

Recalling the World Health Assembly resolution on COVID-19[1] and EU Strategy for COVID-19 vaccines[2] supporting the voluntary pooling and licensing of intellectual property related to Covid-19 therapeutics and vaccines, to promote equitable global access as well as a fair return on investments

Fully aware of our responsibility as researchers and innovators to find innovative solutions.

Bearing in mind the urgent need to valorise research results for the benefit of all.

We agree and endorse the principles below when dealing to research results steaming from EU funded research grants related to COVID-19 on

prevention, testing, treatment and vaccination:

1. Make the generated results, whether tangible or intangible, public and accessible without delay, for instance on the Horizon Results Platform, on an existing IP sharing platform, or through an existing patent pool;
2. Make scientific papers and research data available in open access without delay and following the FAIR principles via preprint servers or public repositories, with rights for others to build upon the publications and data and with access to the tools needed for their validation. Specifically for COVID-19 research data, make them available through the European COVID-19 Data Platform;
3. Where possible, grant limited time<sup>[3]</sup>, non-exclusive royalty free licences for the intellectual property. These non-exclusive royalty free licenses will be given in exchange for the licensees' commitment to rapidly and broadly distribute the resulting products and services under fair and reasonable conditions to prevent, diagnose, treat and contain Covid-19;
