

# Leveraging AsphaTriage for **Enhanced Efficiency in Pharmacovigilance and MHRA screening**

Improving **EudraVigilance  
and MHRA screening** through  
digital transformation.

# Managing Data Screening Efficiently

Traditionally, handling **weekly EudraVigilance** and **MHRA screening results** involved multiple **manual steps**:

- Downloading screening files
- Organizing datasets
- Identifying duplicates
- Preparing cases for case management systems

These processes are **time-consuming** and **require careful data handling**.

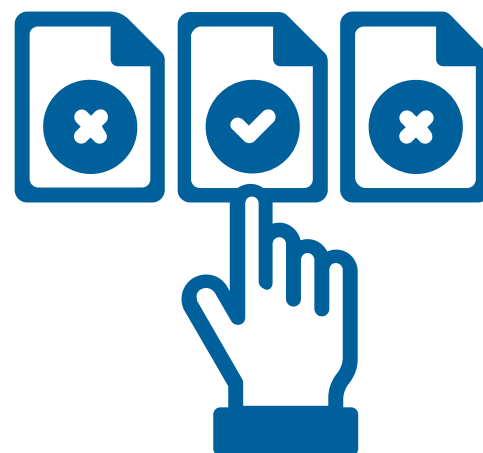

# Introducing AsphaTriage

To improve efficiency, **Asphalion has implemented AsphaTriage**, a **validated, cloud-based tool** designed to streamline **the ICSR triage process**.

The platform enables:

- Automation of repetitive tasks
- Acceleration of ICSR review and prioritization
- Improvement of consistency in case evaluation

## AsphaTriage

AUTOMATED EUDRAVIGILANCE  
AND MHRA SCREENING

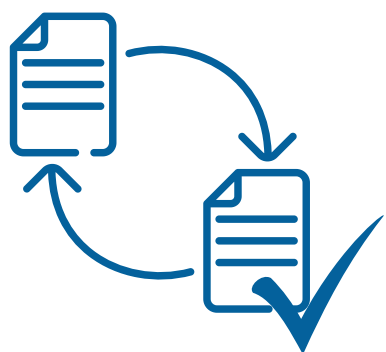

# Process overview

The workflow with **AsphaTriage** is simple and efficient:

## Importing Files

ZIP files downloaded from EudraVigilance are uploaded directly into the platform.

## Automated Triage

Company selection and duplicate checks are performed automatically.

# Data Review, Organization & Reporting Insights

AsphaTriage enables efficient **data organization and analysis** through:

- Customizable filters
- Flexible data columns
- Advanced queries

These features help teams **focus on relevant safety information** and support decision-making.

The platform generates **customizable reports** to support internal analysis and monitoring. Key benefits include:

- Better data visibility
- Structured data review
- Efficient internal communication

# Key features

✓ **Automation**

Reduces repetitive manual steps and minimizes errors.

✓ **Speed**

AI-powered processing enables rapid handling of large datasets.

✓ **Advanced Data Handling**

Supports effective case organization and evaluation.

✓ **Streamlined Workflow**

Simplifies routine pharmacovigilance processes.

✓ **User-Friendly Interface**

Intuitive navigation and easy access to key functions.

**Prioritization, Customizable  
tool, ICSR prioritization.**
