

# Meet the Expert | CMC & APIs

Behind every CMC and API-related project lies a combination of technical expertise, regulatory insight, and strategic thinking.

# Consol Bozzo

## Scientific & Regulatory Affairs Director

Holding a degree in Pharmacy and a PhD in Pharmaceutical Chemistry, Consol brings **extensive scientific and regulatory expertise** to pharmaceutical projects.

She has been part of Asphalion since 2005 and brings significant experience in **international registration procedures, scientific and medical writing, and the preparation of registration dossiers, IMPDs and INDs**, with a strong focus on CMC sections for both chemical and biological products.

Her profile also stands out for strong experience in **life-cycle management and post-approval procedures**, making her a valuable expert in supporting the **CMC life-cycle management of APIs** and helping companies address **regulatory requirements in both the EU and US**. She also has experience in **due diligence** and **gap analyses**, contributing to strategic regulatory decision-making throughout product development and maintenance.

**25+**

**API-related projects supervised over the last three years**

**Providing clarity to complex API  
and CMC challenges.  
Learn more about our expertise.**
